

Helium Releases

Introduction

Watch this page if you want to pay attention to Helium Releases and planned deployments.

Once a release has been performed, it will move from Release Plan to Release Notes, and a Release Notes document will be created with full details on what the release entails.

Helium Release Schedule

The Helium Development Team would like to maintain a consistent and predictable release schedule. In order to achieve this we have decided on the following approach:

#	Released to	Schedule for the Release	Notifications
1	BETA deployment to <ul style="list-style-type: none">RC serversPreprodInternal dev server	Planned for the first Thursday of every month	<ul style="list-style-type: none">Email notification on the day of the BETA deploymentSlack notification in the general channel on the day of BETA deployment
2	LIVE deployment to <ul style="list-style-type: none">ProductionThird party dev servers	Planned for five business days after the BETA deployment	<ul style="list-style-type: none">Email notification on the day of the LIVE deploymentSlack notification in the general channel on the day of the LIVE deployment when the deployment commences and has been completed

Helium Release Plan

Version	BETA Deployment	Live Deployment	Remarks
1.37.0	2020-05-11	2021-05-13 22:00 CAT	1.37 Release Notes

Helium Release Notes

Version	BETA Deployment	Live Deployment	Release Notes
1.36.0	2020-04-01	2021-04-08 22:00 CAT	1.36 Release Notes
1.35.0	2020-03-04	2021-03-18 22:00 CAT	1.35 Release Notes
1.34.0	N/A	2021-01-28 22:00 CAT	1.34 Release Notes
